

PARENT SURVEY

2020-2021

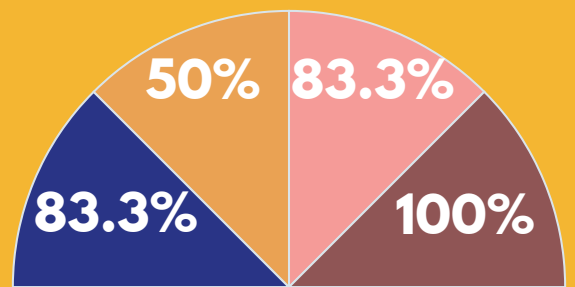

The Center went above and beyond with my child and his needs

The Center helped in getting my child diagnosed for his mental health and I am very grateful for everything Waalgwan did for my son

As a parent I would have like to receive information sooner about my daughter's precipitated departure

I appreciate the work of the staff at the Center and continue to believe that my daughter could reintegrate back into the program eventually
